

Tring<sup>s</sup>

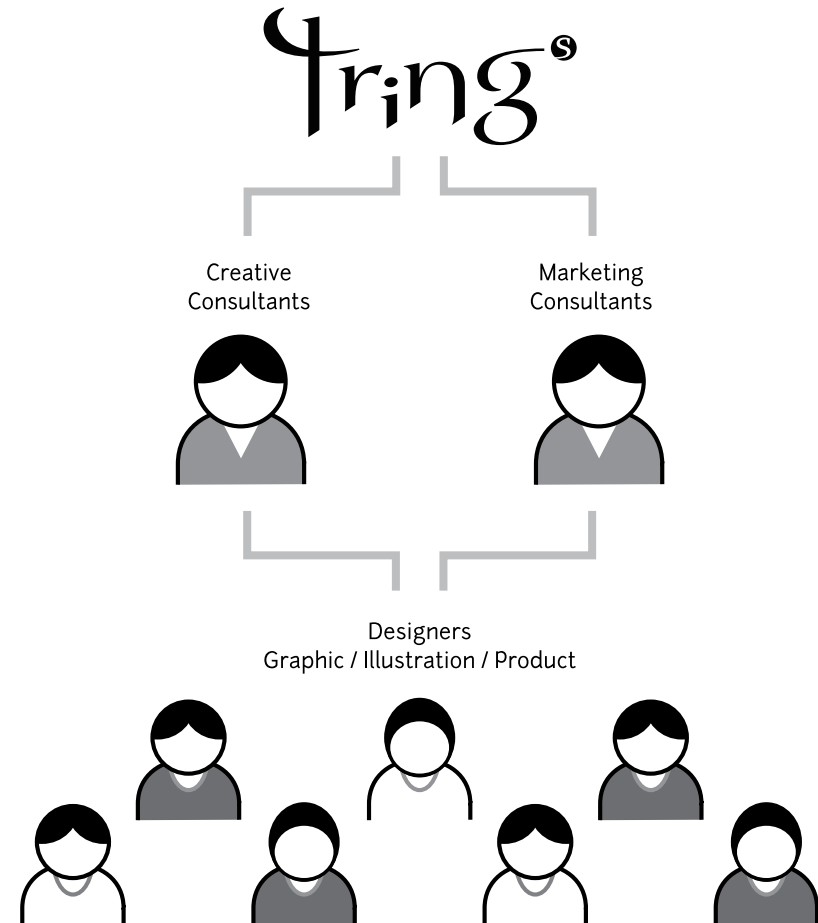

Tring Studio - Our bright ideas sharpen your future

“TRING (sound of drawing a sword) -  
An armed fighter with versatility ready for  
the many battles in the business world.”

## **We are passionate about art, design and enrich the lives of our clients and their customers**

Tring Studio helps you to invent or reinvent your organization’s image as well as manage and build on it for the long-term. Tring Studio has a diverse and creative talent base, giving us an advantageous ability to provide the most appropriate aesthetic which ensures you reach your intended audiences. We will take the time to learn your business, what you are all about, who your competitors are, who you want to reach and where you want to proceed. Working with Tring Studio, you can expect personal attention on every endeavor, large or small. We are in it for the long haul and will be your ally every step of the way. Let us help to shape and mature how the world sees your brand.

## Corporate Structure

The designers at Tring Studio have a history of serving the corporate and studio environments that provide countless opportunities to push the envelope. Paper, textile, metal, plastic, glass and not much are not candidates to be splashed with our artwork. We have experience in everything from signage planning and design, to intricate product-packaging. Innovations in print materials, processes and techniques continue to provide us more ways to make your company and products stand out.

## Five steps to move towards a success

- **Getting Start** - Through meetings, phone calls and e-mail, Tring Studio will gain an understanding of your business and how we can meet your marketing needs. By communicating back and forth, we have the utmost confidence that the services we provide will fit your situation.
- **Research and Pre-production** - After we have gained an understanding of your business and have determined the scope of services we will be providing, we will roll all our findings into your project details and begin outlining, wire framing or sketching concepts that will provide you with rough concept work to ensure we are heading in the right direction before proceeding to the more intensive design work.
- **Development** - Now that you have approved the drafts, we will push desktop publishing technology to its limits to make something remarkable for you.
- **Feedback and Revisions** - You will see our proposed concepts turned into polished designs. We are more than happy to hear your feedbacks on each design and we will go back and forth in this and the development stage until you are thoroughly satisfied with the finished creation.
- **Finalization** - After you are satisfied with your custom creation, we will wrap up billing and prep your files for delivery. We frequently help our customers to deploy their projects, such as assisting in placing print orders and buying media, and finally sending you the source files through internet or on a disc.

## **Do you want to have more people to use your products and services?**

A high-quality product and service will bring you towards success. Thus, having a well-planned product-launch and promotion with attention-grabbing graphics as visual presentations would definitely increase your competitiveness in your industry.

Tring Studio is your one-stop Design and Marketing Consultancy firm in the field of strategy marketing, branding, design, end-to-end production, workflow management, sourcing and logistics, with specialization in developing attention-grabbing graphics, corporate marketing, promotional materials, packaging and product designs.
